Artist Joe Conner

I love art!

I love looking at art!

I love creating it and sharing it!

If I could remember the day of my birth in Cambridgeshire, England, I'm sure I would say that I loved art since I was born. - Joe Conner

Artist Joe Conner studied at General Art & Design course at Isle College, Cambridgeshire, as well as Suffolk New College, Ipswich, Suffolk, where she studied design, advertising, illustration and typography. In 1990, she won the coveted Iggesund Paperboard Silver Tree Award.

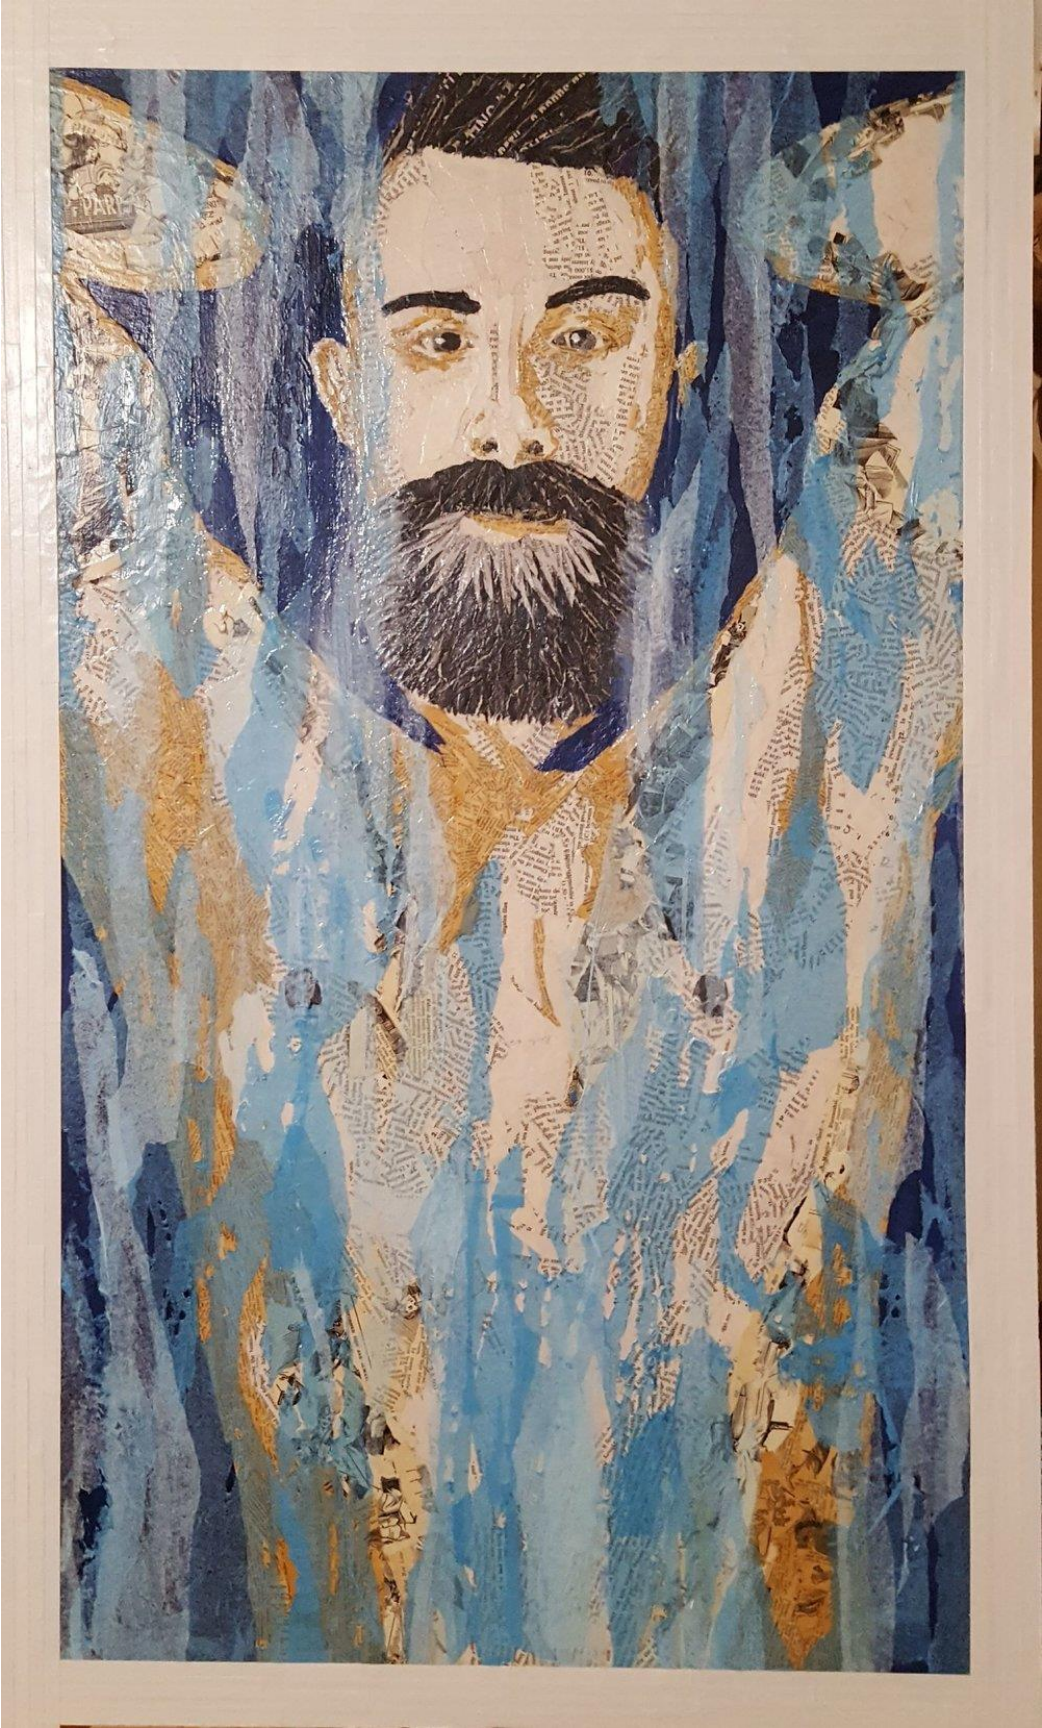

Since moving to the states, Joe has continued her epic career as a web designer. But as a career artist, she has also shown her incredibly detailed collage work throughout the DFW area. Her work has been well received.

Her work ranges from the whimsical to the tough-provoking. From serene to the attention-seeker!

Her work transitions from the downright adorable to the "hey girl" feeling.
